

Reiki level 2, is also known as Shoden in the founding nation, Japan. It is also referred to as 2nd degree Reiki. Welcome to this level of learning, your next step along your Reiki path. This level of learning allows you to receive paying clients who will accept Reiki healing from the Universe as it flow through, you – a clear conduit of healing energy as you have healed yourself. This course teaches the student three of four Reiki symbols, how to draw and activate them and to use them in healing sessions with yourself and clients. This course teaches distance healing method that Dr Usui taught his students; distance is no matter for Reiki, Universal energy transcends all time and so healing the past, present and future is achievable, as too other lifetimes and dimensions. Karma is resolved and you begin to move into a clearer state of being, whatever requires purging from your conscious and unconscious mind will be released and you will be able to review this, if you choose, to glean pearls of wisdom and gems of insight. This course provides you with a recognised diploma that allows you to apply for membership with the international institute of complimentary therapists who have options for insurance that covers you and your practice when receiving clients.

As this level of Reiki allows you to receive paying clients you will also learn:
